A friend of mine a prominent physician of this city has a U.S. Dollar of 1804 of which he understands only 19 were issued. It has recently become known that he has this dollar and he is in receipt of letters constantly from collectors from various to buy it. He does not care to part with it but would like very much to know its history and why only four were issued and I will be very much obliged if you can give me (for him) any information on the subject. The Doctor tells me that 3 of the 19 issued are accounted for
